**Recacril Design Line** is 100% solution dyed acrylic intended for awning and marine use. Recacril solids and stripes include both classic and more sophisticated designs in a large choice of colors, available in widths of 47", 60" or 98".

**Suggested Applications:**

Boat Tops, Covers, Awnings, Umbrellas

**Warranty**

A limited warranty of 5 years is guaranteed on RECACRIL® products.

The warranty protects against the loss of characteristics, rot, mildew and discoloration typical in normal atmospheric conditions. This warranty does not apply against deterioration of any kind due to abusive use, accidental burns, negligence, vandalism, perforations, natural disasters or acts of nature. Normal wear, weather soiling, or stains from environmental pollution or other sources are not covered.

The product must be properly installed and maintained. The warranty, if applicable, does not cover labor, frames, systems and installation supplied by the dealer.

S.A. Recasens makes no fitness of warranty for any particular purposes with respect to the goods being sold.

To obtain replacement fabric, call your dealer. Upon verification, your dealer will send a certified letter containing the appropriate information and facts to S.A. Recasens. S.A. Recasens agrees to replace, free of charge the appropriate amount of the defective fabric with the same fabric.

There are no warranties, expressed or implied, that extend beyond the description on the face of this agreement.

**Specifications**

- **Width:** 47", 60" or 98"
- **Weight:** 9.0 oz. per square yard
- **Water Repellent**
- **Fade and Mildew Resistant**
- **Clean with NON-DETERGENT Soap**

**Care and Cleaning**

Proper care and cleaning should be taken to ensure the life of Recacril outdoor fabrics.

For regular care and maintenance, excessive dirt should be brushed from the fabric using a soft brush; the fabric should be sprayed with warm water (not exceeding 100° F) and air-dried.

Periodically the fabric should undergo a more thorough cleaning. Again brush fabric with a soft bristled brush, spray with warm water then apply a gentle soap, let stand for 10 to 20 minutes taking care not to let it dry, rinse thoroughly and air-dry. Do not use energetic detergents and/or solvents.

Make sure to leave the retractable awning outside until it is completely dried. This prevents mildew from forming.

**Infinity Process**

The Recacril® and Recsystem® canvases are treated with a special technological process to ensure the lasting quality of the fabric. In this process, nanoparticles completely cover the surface of the fibers in the fabric, forming a permanent coat. After treatment, both the surface and the inside of the fabric are permanently protected against dirt build-up, and adverse effects of a wide variety of atmospheric agents.

The low reactivity and high stability of the Infinity treatments endows long-term protection to the awning, especially against mildew, and provides excellent water and oil repellence.
