## ULTRASHADE™

## Vinyl Laminated Awning Fabric

- Vinyl laminated polyester weft insertion scrim
- 61" wide - weight 18 oz.
- High strength to weight ratio allowing for ease of awning manufacture and resistance to sagging or stretching
- Top coating enhances pressure sensitive vinyl receptivity, cleanability, and prolonged fabric life
- Excellent abrasion resistance
- Resists acid rain and air pollution discoloration
- Exceptionally smooth surface provides superior cleanability and stain resistance
- Meets California State Fire Marshal FA-03102 & Large Scale NFPA-701
- Available in custom colors
- 5-Year manufacturer's warranty
- Meets ASTM-E84-03, Class A, Flame Spread Index-15
- Duplex colors can be produced in any color combinations of 500 yards or more

## ULTRASHADE-LITE™

## Vinyl Laminated Awning Fabric
